

Ivan Frantar

Product Design

Work experience

Head of Design @ Aerlytix (formerly part of Stellwagen) | 01.2020 - Present

- Hands-on designing the product, investigating and solving business problems in a complex domain driven environment.
- Collaborating closely with project managers & executive stakeholders to navigate requirements while providing iterative, thoughtful solutions.
- Defining design principles that transmit to every aspect design is involved in the company and the business.
- Creating operational processes and practices for the creative vision and branding of Aerlytix.
- Leading and coordinating and leading marketing and communication initiatives.

Senior Product Designer @ Stellwagen Group | 01.2017 - 01.2020

- Bridging design with C-level and members of the Group for the strategic direction of the tools and products built.
- Shaping up a culture of design within the company amongst a team of technologists, engineers and quantitative modellers running design reviews, sprints and critiques.
- Implemented Product Market Fit research template viability of projects proposals.
- Built and coded a Design System library.

Senior Product Designer @ CurrencyFair | 07.2013 - 12.2016

- UI/UX design & frontend development (JavaScript, SASS, CSS3, HTML5).
- Responsive design implementation.
- Prototyping & wireframing for mobile apps & web.
- Established style with Twitter Bootstrap & Brand guidelines for Marketing
- Optimization for user behaviors using tools like Visual Web Optimizer, Google Analytics, Mixpanel.
- Conducted usability workshops with lead devs & project managers for flow & engagement enhancements.
- Mentored designers in system settings, Git usage, debugging, cross-platform compatibility.
- Organized design critiques & sprints for idea validation & improvement.

Lead Mobile UX Designer @ Hostelworld | 07.2010 - 06.2013

- I led UI/UX design for Mobile Sites and Apps (Android & iPhone) at Hostelworld and Hostels.com, collaborating closely with Product Head, PMs, and Developers.

Web Designer & Developer @ Hostelworld | 10.2007 - 07.2010

- I was hired to design and enhance the experience on a new product offering Hostelworld was creating: boo.com which won the 2008 Spider Award to best travel website.
- Worked in the other products and brands the company had such as hostels.com, trav.com, bedandbreakfastworld.com in a number of different initiatives in my capacity as a designer and developer.
